

# ADVANCED INDIVIDUAL TRAINING

MILITARY | FORT LEE MILITARY BASE, VIRGINIA

## CLIENT

Purcell Construction  
Corporation

## PROJECT DESCRIPTION

Due to an increase in the need for on-base housing, the Fort Lee Military Base expanded its barracks facility near Petersburg, Virginia. The construction project included six barracks buildings designed to house 600 soldiers each. The project also included two battalion headquarters buildings and one brigade headquarters building. The Townes Team completed civil design services as well as construction stakeout and inspection services for the project.
